GENERAL PURPOSE AND SCOPE: The Applied Computational Electromagnetics Society (ACES) Journal hereinafter known as the ACES Journal is devoted to the exchange of information in computational electromagnetics, to the advancement of the state-of-the-art, and to the promotion of related technical activities. The primary objective of the information exchange is to inform the scientific community on the developments of new computational electromagnetics tools and their use in electrical engineering, physics, or related areas. The technical activities promoted by this publication include code validation, performance analysis, input/output standardization; code or technique optimization and error minimization; innovations in solution techniques or in data input/output; identification of new applications for electromagnetics modeling codes and techniques; integration of computational electromagnetics techniques with new computer architectures; and correlation of computational parameters with physical mechanisms.

SUBMISSIONS: The ACES Journal welcomes original, previously unpublished papers, relating to applied computational electromagnetics. Typical papers will represent the computational electromagnetics aspects of research in electrical engineering, physics, or related disciplines. However, papers which represent research in such material already been published elsewhere, it is the author’s responsibility to obtain written permission to reproduce information contained in their papers. If any material submitted for publication includes material which has applies to advertising, for which only camera-ready copies are accepted. Authors are responsible for

Editor-in-Chief:

Printed issues of the ACES Journal are devoted to the exchange of information in computational electromagnetics.

SUBSCRIPTIONS:

All members of the Applied Computational Electromagnetics Society are entitled to access and downloaded the ACES Journal of any published journal article available at http://aces-society.org. Printed issues of the ACES Journal are delivered to institutional members. Non-Institutional members can request a printed copy with the pre-paid fee which covers printing and shipping fees.

Back issues, when available, are $50 each. Subscription to ACES is through the web site. Orders for back issues of the ACES Journal and change of address requests should be sent directly to ACES office at:

Shaneel Lopez
Electrical Engineering and Computer Science Department
Colorado School of Mines
310A Brown Building
Golden, CO 80401

Allow four weeks advance notice for change of address. Claims for missing issues will not be honored because of insufficient notice, or address change, or loss in the mail unless the ACES office is notified within 60 days for USA and Canadian subscribers, or 90 days for subscribers in other countries, from the last day of the month of publication. For information regarding reprints of individual papers or other materials, see “Information for Authors”.

LIABILITY: Neither ACES, nor the ACES Journal editors, are responsible for any consequence of misinformation or claims, express or implied, in any published material in an ACES Journal issue. This also applies to advertising, for which only camera-ready copies are accepted. Authors are responsible for information contained in their papers. If any material submitted for publication includes material which has already been published elsewhere, it is the author’s responsibility to obtain written permission to reproduce such material.

APPLICATIONS OF INTEREST INCLUDE, BUT ARE NOT LIMITED TO, ANTENNAS (AND THEIR ELECTROMAGNETIC ENVIRONMENTS), NETWORKS, STATIC FIELDS, RADIATION SOURCES, INTERACTION OF LIGHT AND MATTER, OPTICAL MATERIALS, BIOLOGY, MEDICAL IMAGING, ELECTROMAGNETIC COMPATIBILITY (EMC), POWER TRANSMISSION, POWER DISTRIBUTION, ELECTROMAGNETIC ENVIRONMENTAL EFFECTS, ELECTROMAGNETIC FIELD MEASUREMENT, ELECTROMAGNETIC PROTECTION, ELECTROMAGNETIC SECURITY, ELECTROMAGNETIC COMMUNICATIONS, ELECTROMAGNETIC COMPUTATIONAL ELECTROMAGNETICS (EM), ELECTROMAGNETIC INTERFERENCE (EMI), ELECTROMAGNETIC COMPATIBILITY (EMC), POWER TRANSMISSION, CHARGE TRANSPORT, DIELECTRIC, MAGNETIC AND NONLINEAR MATERIALS, MICROELECTRONICS, MEMS, RFID, AND MIMIC TECHNOLOGIES, REMOTE SENSING AND GEOMETRICAL AND OPTICAL IMAGES, RADAR AND COMMUNICATION SYSTEMS, SENSORS, FIBER OPTICS, PLASMAS, PARTICLE ACCELERATORS, GENERATORS AND MOTORS, ELECTRICAL PROPAGATION, NON-DESTRUCTIVE EVALUATION, ULTRASONIC, AND INFRARED IMAGING.

Techniques of interest include but not limited to frequency-domain and time-domain techniques, integral equation and differential equation techniques, radiation theories, physical and geometrical optics, method of moments, finite differences and finite element techniques, transmission line method, modal expansions, perturbation methods, and hybrid methods. Where possible and appropriate, authors are required to provide statements of quantitative accuracy for measured and/or computed data. This issue is discussed in “Accuracy & Publication: Requiring, quantitative accuracy statements to accompany data.” By E. K. Miller, ACES Newsletter, Vol. 9, No. 3, pp. 23-29, 1994, ISBN 1056-9170.

SUBMITTAL PROCEDURE:

All submissions should be uploaded to ACES server through ACES web site (http://aces-society.org) by using the upload button, journal section. Only pdf files are accepted for submission. The file size should not be larger than 10MB, otherwise permission from the Editor-in-Chief should be obtained first. Automated acknowledgment of the electronic submission, after the upload process is successfully completed, will be sent to the corresponding author only. It is the responsibility of the corresponding author to keep the remaining authors, if applicable, informed. Email submission is not accepted and will not be processed.

EDITORIAL REVIEW:

In order to ensure an appropriate level of quality control, papers are peer-reviewed. They are reviewed both for technical correctness and for adherence to the listed guidelines regarding information content and format.

PAPER FORMAT:

Only camera-ready electronic files are accepted for publication. The term “camera-ready” means that the material is neat, legible, reproducible, and in accordance with the final version format listed below.
