The Applied Computational Electromagnetics Society Announces a Special Issue of the ACES Journal on: ACES-China 2018

Guest Editors:
Prof. Xiaomin PAN, Beijing Institute of Technology, xmpan@bit.edu.cn
Prof. Qi WU, Beihang University, qwu@buaa.edu.cn
Prof. Maokun LI, Tsinghua University, maokunli@tsinghua.edu.cn

The Applied Computational Electromagnetics Society is announcing a new Special Issue of the ACES Journal dedicated to papers related to selected topics presented at The 2018 International Applied Computational Electromagnetics Society Symposium in China (ACES-China), that took place on July 29 – August 1, 2018.

Authors of all papers presented at the symposium are invited to submit an expanded version of their papers to the special issue. The expanded version requires that the new technical content to include a more in-depth treatment, or results beyond the ACES-China paper, and take advantage of the discussions generated at the conference, leading to possibly different results or interpretations. Every paper will be reviewed in the same manner as all other regular submissions to this publication.

DEADLINE FOR SUBMISSION IS October 15, 2018

Potential contributors wishing to discuss the suitability of their contribution may contact either of the Guest Editors. Please upload your manuscript to the ACES server at http://aces-society.org by using the “Upload” button, “Journal”, “Upload a New Paper”, then select “Special issue on ACES-China 2018”.

The format requirements can be found at ACES web site under the journal section. The review process will begin as the editor finds your paper on ACES web site. Email or paper submission will not be processed.

There is a basic publication charge assigned to each paper submitted ($200 for ACES Members, and $250 for non-Members). Corresponding author should be an active member of the society at the time of submission and at the time of publication in order to receive the reduced member charge.

Over page charge of $60 per page is applied to papers with more than Six (6) pages. Payment of publication charge and/or over page charge, if applicable, should be completed on line right after the acceptance of the paper in order to proceed with publication.

ACES Journal is abstracted in INSPEC, in Engineering Index, DTIC, Science Citation Index Expanded, the Research Alert, and to Current Contents/Engineering, Computing & Technology.
